

# 3D APPLE CRAFT

Print the Apple PDF for each child. Get the children to colour in the page first. Once coloured, cut out the shapes. You should have 9 strips and 2 leaves. Stack the strips on top of each other with the words facing upwards. Hole punch one end of the stack and insert a split pin. On the other end, add the leaves to the stack, hole punch and insert the pin. Once this is complete you should then be able to separate each strip to make the 3D shape of an apple.

Items required: printout for each child, split pins, scissors, pencils/ felt tips, hole punch.
