## Company Senior Squad Games

## **Bring Me...**

In a large room with plenty of space separate the squads into four corners with equal distance to the centre of the room. The game Bring Me will require for each squad to race to give the designated item to the leader who calls for it. Each squad should pick a runner for each round to stop any accidents happening. The leader who is in charge of the game will stand in the middle of the groups and ask for the item to be brought to him, and the first squad to bring it to him will get the points. Leaders can agree their own point system. Play the game for

Please see below a list of ideas for what the squads could be asked to bring. Leaders can also add their own ideas or get ideas for the young people.
