

Create an anchor

Creative challenge

What you need:

- An assortment of different materials or produce to create an anchor:
- Toys
- Food
- Sweets
- Natural materials
- Items from the garden, park or beach
- Recycleables
- Card
- Scissors
- Glue or cellotape

The Challenge:

Encourage the young people to bring items to BB from home that they no longer need such as recyclables and put these together with an assortment of things from the BB cupboard, card, stationary, etc.

Place the young people into teams and give them the challenge of creating their own anchor. This can be a timed challenge or just give the young people as long as they need to complete this. As they work they can either choose to stick their anchor onto heavy card, or they can just arrange it on a table or the floor.

When the anchors are complete each group could explain what they used for their anchor and how they built it.
