

Explore Outdoors

The world is waiting...

What you need:

- The geocaching app
- Photo challenge

The challenge:

This is a challenge to get your Company and Senior members to get out and explore the great outdoors. This could be in the form of going Geocaching, doing a photo challenge (a template of which is available on the BBNI Resource Area in the God's Masterpiece tag, or you can create your own), or just going for a walk together in a forest park or up a mountain. This can also add miles if you decide to do the "mile a day" challenge.

What is Geocaching?

Geocaching is described as the world's largest treasure hunt. The app will show you the locations of any geocaches near you and you go looking for it. They aren't always easy to find, so finding them feels like an accomplishment. You then log the find into your app and it keeps track of how many you have found. Click here to be taken to their website:

Take pictures with you on your journey and make a collage of the adventure and things that you collected with you on the way. Then you can display this on your social media and display nights.
