

Company Senior Squad Games

Newspaper Treasure Hunt

Prior to playing this game ensure that you can get several copies of the same newspaper. The leaders should read the magazine in advance and pick out different parts of the newspaper that the young people need to find and bring to the leader before any other squad.

When the game is being played, the squads will be allowed 5 minutes to look through the newspaper and prepare it for the game. Then the leaders will call out what they need from the newspaper and a member from the squad will need to rip the piece of information out of the newspaper and bring it up to the leader.

Please see below ideas for what you could ask for.

IDEAS:

- The date that the newspaper was released.
- The title of the newspaper.
- A picture from a specific article.
- The title of a specific article.
- An article speaking about _____ (give the subject matter of one of the articles that is hidden away).
- A specific classified ad, of someone promoting their business.
- The price of the newspaper.
- A picture of someone doing _____
- A picture of a dog

For each squad that brings you their scrap from the newspaper first wins points, and at the end of the game the squad with the most points wins.

This could also be played using magazines or comics. But make sure that there is enough content to keep the game moving for a bit of excitement.
